(1) Use cutting data A through F to cut out the parts.

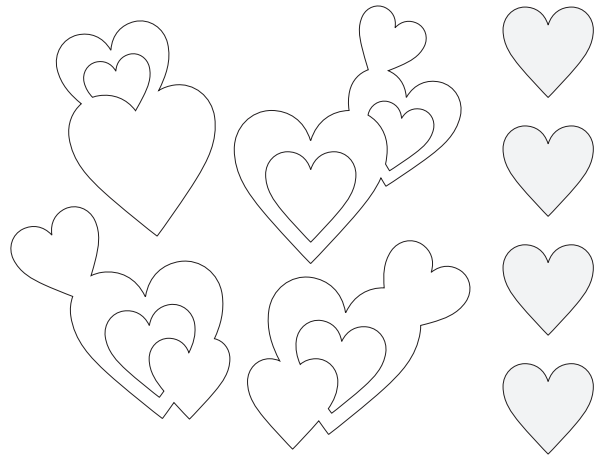

A

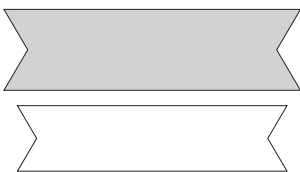

B

C

D

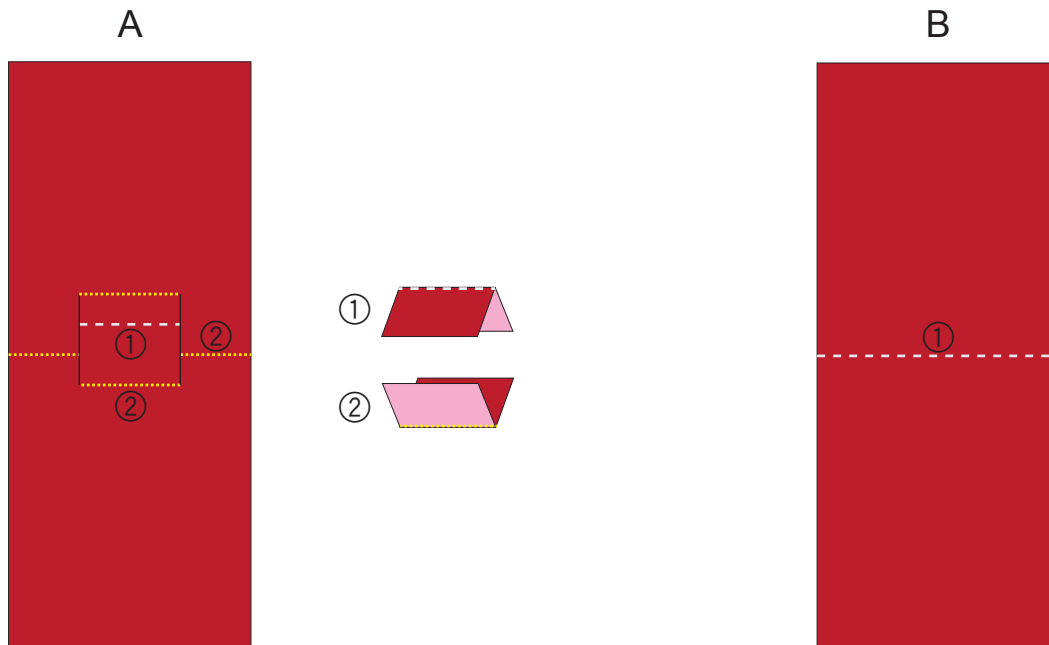

E

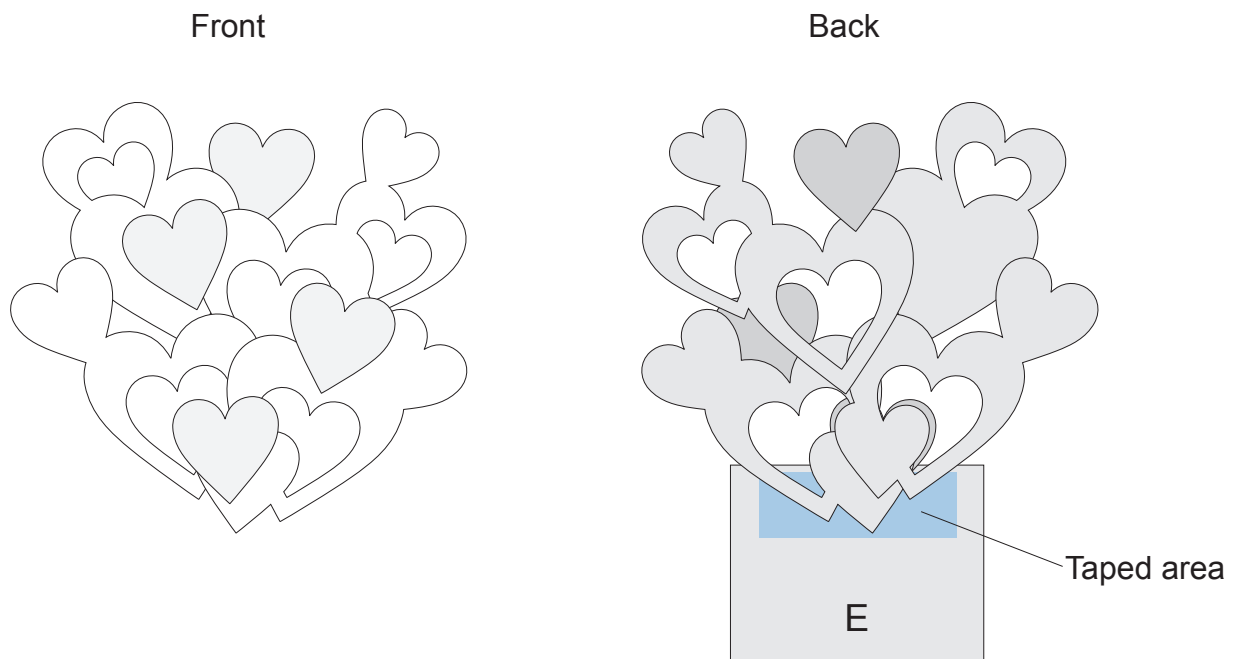

F

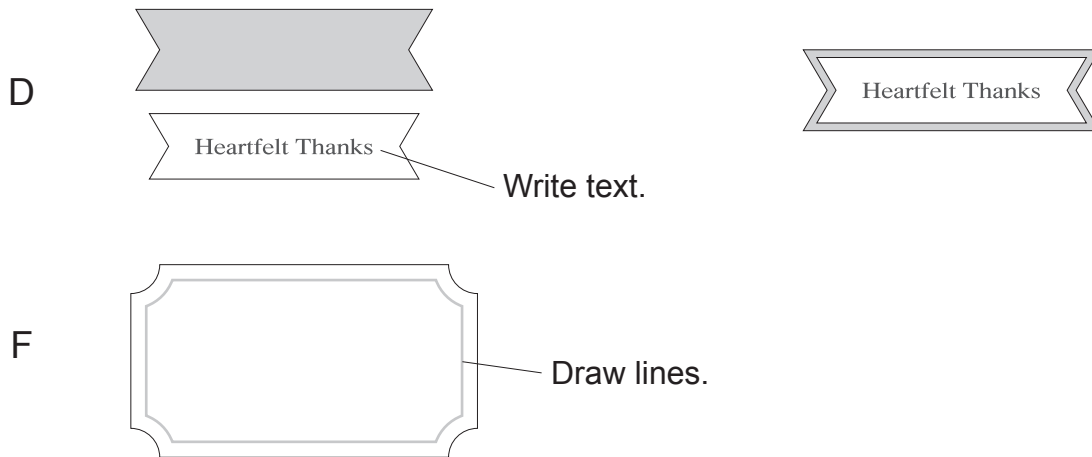

(2) Fold out the cutout in part A. Fold parts A and B along the dotted lines, and then align the folds and glue the two parts together.

(3) Glue together the pieces of C, as shown below, and then turn it over and glue it to the back of E.

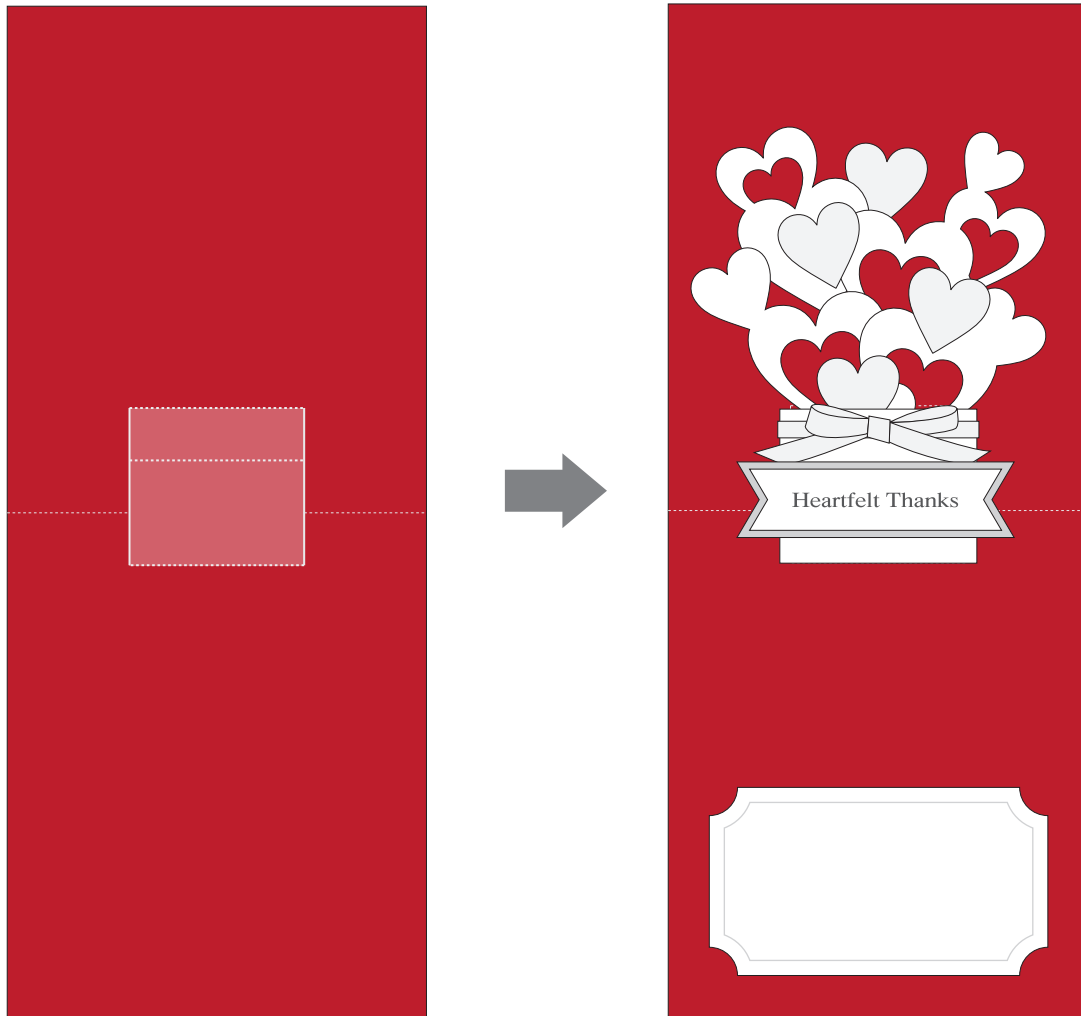

(4) Write text on D, and glue the pieces together. Draw a line on F. (Refer to the actual-size diagram.)

(5) Attach a foam adhesive square to the back of D, and then glue on the ribbon and D, as shown below.

(6) Glue the piece made in step (5) to the part of A that was folded out, as shown below, and then glue F at the bottom.
