(Preparation) Purchase the Rhinestone Starter Kit and enter the activation code shown on the activation card. Activating the rhinestone function on ScanNCutCanvas gives you access to rhinestone patterns and rhinestone wizard to create your own designs. (For details, refer to the instructions included with the kit.)

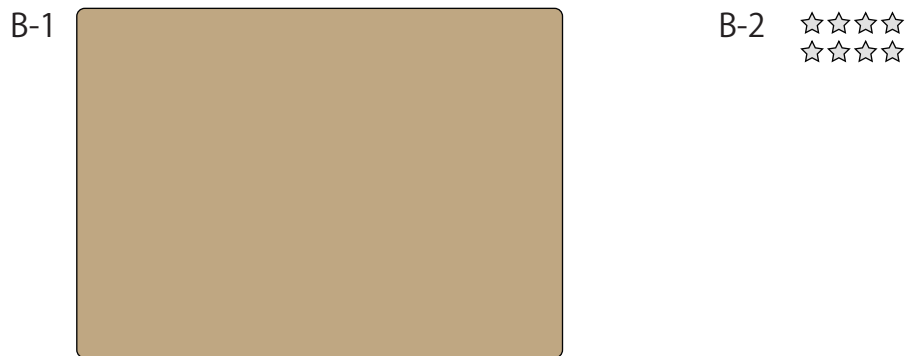

(1) Insert the pen into the optional universal pen holder, and then install the pen holder in the machine. (For details, refer to the manual included with the machine.)

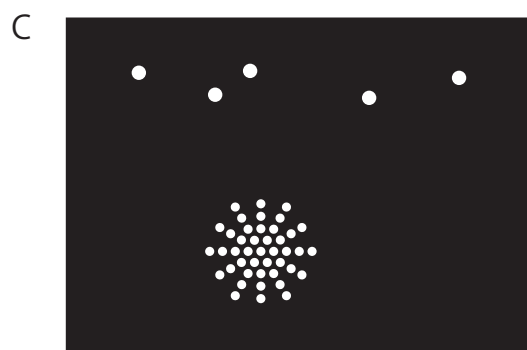

(2) Press the drawing function for the text outline and fill. Then, install the blade holder and cut it out.

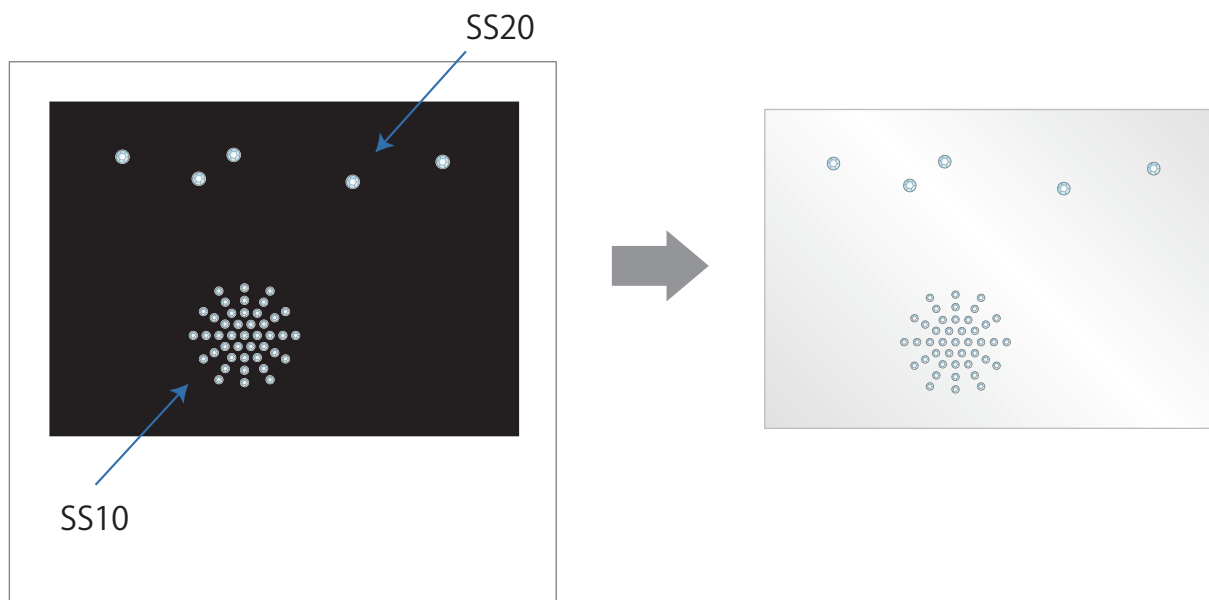

(3) Cut out part B-1 and the B-2 parts.

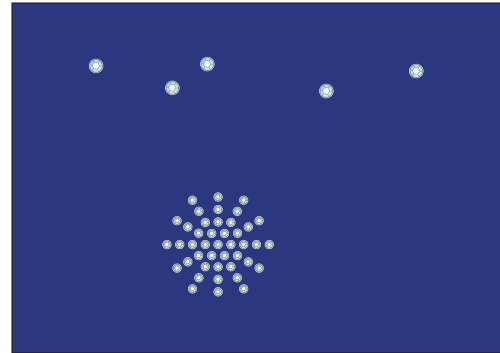

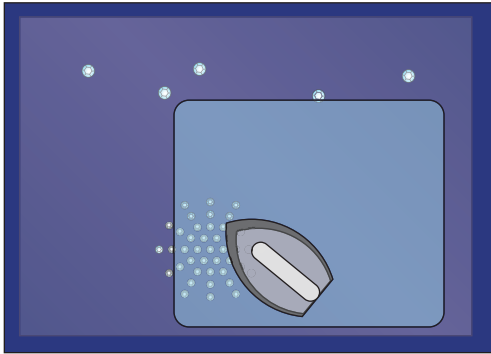

(4) Attach the template sheet included with the Rhinestone Starter Kit to the standard mat, then cut part C. (For details, refer to the instructions included with the kit.)

(5) Place the template onto the cardboard included with the kit, then arrange rhinestones in the cut holes. Transfer rhinestones to the transfer sheet.

(6) Place the part you made in step (5) on the fabric, then lay a piece of cloth over the fabric so that you can iron it.

(7) Put part A on the part you made in step (6) as shown below, then align the holes with the rhinestone positions. Cut any excess fabric.

(8) Glue part B-1 to the part you made in step (7), then glue the B-2 parts as shown below.
